

**Control, Comfort &
Convenience for Every Home**

Welcome to the connected home.

The Cync family of products offers a seamless technology experience that is easily configured and controlled with a single app, no hub required.

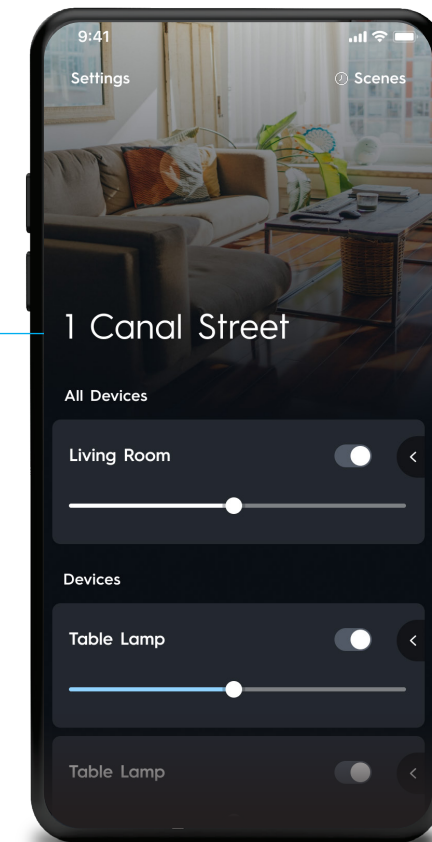

Once products are discovered and added to rooms, the Cync app, allows homeowners to personalize their smart home experience with cameras, climate, lighting, security and more.

POWERED BY
SAVANT

Experience life in Cync

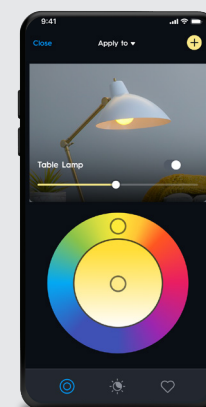

Our family of smart products work together in one app to add comfort, security and convenience to any home.

Personalize the app experience by adding home photos.

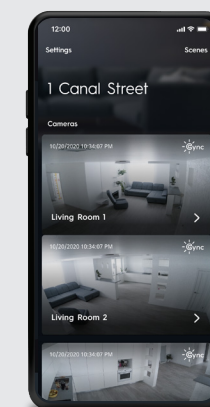

Create **Scenes** for control of multiple lights in multiple rooms.

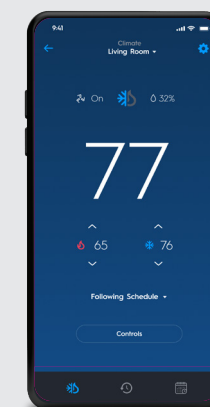

Quick access for on/off and dimming control

Personalize with Scenes & Schedules

Creating scenes is a perfect way to set the mood. Turn on and off multiple lights, dim to the perfect levels, and even set color temperature based on time of day.

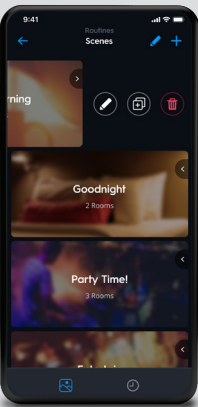

Tap + to create a new Scene.

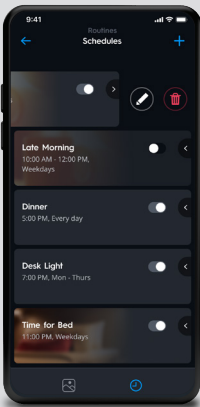

Select the perfect image to represent each **Scene**.

Tap < to Edit Scenes.

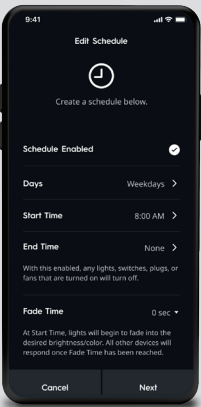

Create **Schedules** to turn lights on/off at the perfect time, or relative to sunrise and sunset all year.
