

Advanced property and access management solution providing security, ease and convenience for residents, tenants, guests and service providers.

Advanced features and capabilities

Video Monitoring and Recording

Know who's at your door with live camera streaming real-time, high-resolution video to your smartphone

Greet Guests with 2-Way Audio

Have real-time conversations with anyone who is at the door all from the convenience of your smartphone.

Your finger is Your Key

Fast advanced 3D fingerprint recognition. Store up to 99 fingerprints.

Hack-proof Digital Keypad

PIN Genie™ touchscreen prevents codes from being guessed by always shuffling the location of the numbers. Store up to 60 access codes.

RFID Card Access

Quick and easy smart card access. Provision for 350 RFIDs.

Mobile App and Voice Control

Unlock, lock, or check door status through LOCKLY smartphone app or by simply using your voice with Google Assistant-enabled devices.

Grant Access Remotely

Lock and unlock your door from anywhere using the Lockly app on any iOS or Android smartphone or device.

Real-time Control, Monitoring and Status

Monitor open/closed door status in real-time and alert you on your smartphone or via LOCKLYOS.

Create eKeys or eBadges for guests

Grant one-time use or specific time duration access by issuing codes, digital eKeys or recurring eBadges remotely via a mobile device.

Offline Access Codes™

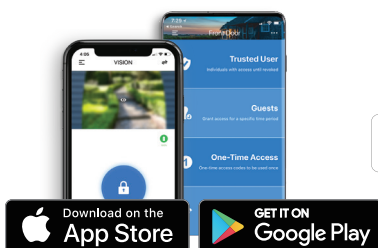

Issue unlimited Offline Access Codes™ to trusted users. No need for them to download an app. Codes work offline without Wi-Fi and expire once used.

Access Management System

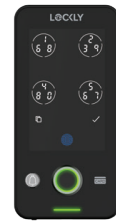

Can be programmed to manage a single unit or multiple units with sub-admin management access, ideal for shared spaces and offices.

Works with LOCKLY OS™ for managing multiple properties
